Perhaps no person in the country is better qualified to write this book than Robert G. “Delegate Bob” Marshall. Having forgotten more than most Americans ever learned about our system of government, the thought of the Founders, state and local politics, and those aforementioned “laws of Nature and of Nature’s God” as expressed politically, accompany Marshall as he takes readers on a crash course in Civics 101.

Marshall is also uniquely qualified to write this book as he knows first-hand that the radical Left is pulling out all the stops to consolidate their gains and reverse their losses. After serving his neighbors for thirteen terms in the Virginia House of Delegates, he was defeated in 2017 by the first openly transgendered candidate to be seated in a US statehouse. His opponent received much outside help, both in terms of volunteers and out-of-state money. Why would a race for the Virginia House of Delegates attract such attention across the country? Again, the radical secularist Left knows what is at stake. Do you? Read this book, digest its lessons, share with your children and friends, and get involved.

Radical secularists have undermined the premise of the Founders to the detriment of our nation and its people. It’s time to fight back. Reclaiming the Republic will show you how.

While the election of Donald Trump as president may have slowed down the project of those who would continue to move America away from the laws of Nature and of Nature’s God, the struggle is not over, and the next few elections may well prove decisive. This book shows Christians and all people of good will and traditional values how to use the levers of civil power to defeat anti-Christian and anti-Natural Law policies at all levels of government…and, what is more important, defeat the proponents of such policies before they gain access to those levers. Reclaiming the Republic pulls back the curtain on the structure of government so that motivated Christians can expose and defeat the work of secularists.
No one knows the intersection of theory and practice better than Bob Marshall, who has fought at that crossroads in a singularly courageous political career. He has not flinched in speaking the forbidden truths publicly and often, yet he has survived to fight another day. Reclaiming the Republic speaks in the language of moral principle and political street smarts on behalf of the highest things.

—Robert R. Reilly, Chairman, the Committee for Western Civilization

Reclaiming the Republic puts to rest the modern claim that I, as a former cooperating attorney for the ACLU once believed: that religion has no place in the political life of the nation. Bob Marshall dispels such secular nonsense, reminding us that our nation was founded on the “Laws of Nature and Nature’s God.” Bob begins by uncovering the legal principles revealed in nature and the Holy Scriptures before unveiling his practical wisdom about the terms, strategies, and tactics that win elections and establish public policy. Too often good people win elections and then wonder what to do next. Bob’s answer is “no matter the level of civic involvement…this book will convince you of the imperative for action and provide a blueprint to guide you in your efforts to reshape the culture to uphold the laws of Nature’s God.

—Herbert Titus, Founding Dean, School of Law, Regent University (1986-93)

Though there is no official “ruling class” in the United States, there is plenty of evidence that America’s cultural elites do, in fact, think that the rest of us are either too dumb, racist, self-centered, homophobic, xenophobic, or devoted to our respective faith traditions to be trusted with the actual levers of power. Robert “Delegate Bob” Marshall’s book is written for “the rest of us.”

—from the Foreword by Professor Robert A. Destro
